

The Most Cost-Effective Choice

Wireless Paging System

Specification

	Pager	
	Pager dimension	103*51*10mm
	Pager material	ABS
	Receiving sensitivity	-114dB
	Standby time	Approximately 6 hours
	Pager standby power	148mW
	Pager battery	Built-in 3.7V 200mAh rechargeable lithium battery
	Pager frequency	315MHz
	Reminder method	Vibration / ring / flash
	Distance of transmission	About 500 meters in a wide-open field
	Keypad	
	Keypad dimension	235*155*35mm
	Material of housing	ABS
	Transmitting power	480mW
	Standby power	650mW
	Maximum power	18W
	Keypad frequency	315MHz
	Power adapter	Input: AC 100-240V, 50/60Hz Output: DC 12V, 2A
