

NX-P16

16-Pager Wireless Restaurant Paging System

Real-time customer alerts for faster service — reduce wait times and improve dining experience

The Nexakey NX-P16 is a wireless restaurant calling system featuring 16 numbered pagers with vibration and beep alerts. Designed to streamline customer flow and reduce crowding, this system notifies guests when their orders are ready via 433MHz RF transmission. Its touch keyboard transmitter, charging station, and rechargeable pagers make it ideal for restaurants, cafés, food courts, and any service environment requiring queue management.

KEY FEATURES

- ✓ **16 Rechargeable Pagers** — each pager vibrates and beeps when called — customers can relax while waiting
- ✓ **Touch Keyboard Transmitter** — intuitive control panel for calling individual or multiple pagers with ease
- ✓ **433MHz Wireless RF** — reliable long-range transmission up to 300 meters in open space
- ✓ **Charging Station Included** — all 16 pagers stored and charged in one compact base unit
- ✓ **Visual + Audible + Vibration Alerts** — multi-sensory notification ensures customers never miss their call
- ✓ **Reduced Staff Workload** — eliminates need to shout order numbers — staff can focus on food preparation and service

APPLICATIONS

- Full-Service Restaurants & Cafés
- Fast Food & QSR Chains
- Food Courts & Mall Dining Areas
- Bakeries & Coffee Shops
- Hospital & Clinic Waiting Rooms
- Retail Pickup Counters
