

# NX-P30

30-Pager Wireless Restaurant Calling System

**30 pagers. One transmitter.**  
**Zero wait-time chaos.**

Complete wireless paging system with **1 touch-keyboard transmitter and 30 rechargeable pagers** — designed for restaurants, cafés, food courts, and hospitality venues. No internet, no software, no wiring required. Staff calls pagers with a single tap; guests receive vibration, sound, and LED flash alerts instantly. Operates on 433 MHz frequency for reliable long-range coverage across any floor layout.

## KEY FEATURES

- ✓ **30-Pager Capacity** — manage up to 30 customers simultaneously from one transmitter
- ✓ **Touch Keyboard Transmitter** — intuitive keypad — call any pager with a single tap
- ✓ **Triple Alert: Vibration + Sound + LED** — guests never miss a call regardless of environment
- ✓ **Plug-and-Play Setup** — no internet, no software, no IT support needed
- ✓ **Rechargeable Pagers** — built-in rechargeable batteries, all charge on the base station
- ✓ **Long-Range 433 MHz Wireless** — reliable coverage across large dining areas and multi-room layouts

## APPLICATIONS

- Restaurants & Dining Chains
- Cafés & Coffee Shops
- Food Courts & Fast Food
- Banquet Halls & Event Venues
- Hotels & Hospitality Service
- Hospitals & Clinic Waiting Areas
