

C-Yark C-869D Desktop Delegate Microphone

Key Features:

- 2.4" color display showing speaking/mute status
- Red LED ring indicator for microphone working status
- Supports hybrid digital-analog backup system
- 8-core T-type shielded cable for strong anti-interference
- Optional RJ45 interface (Cat6/Cat7 supported)

Product Overview

The Digital Conference Microphone Unit is designed for professional meeting environments including office, boardrooms, government, conference halls, and corporate setups. Featuring a 2.4-inch color display, super cardioid condenser microphone, and advanced anti-interference technology, it ensures crystal-clear stable system and communication performance. The unit supports hybrid digital-analog backup architecture and flexible installation options, making it suitable for modern conference systems.

Feature	Specification
Operating Voltage	DC 24V (Supplied by Host)23 AWG
Input/Output	8P Socket ×1 (RJ45 ×1 optional)
Microphone Type	Cardioid Electret Condenser
Sensitivity	-46 dBV/Pa
Frequency Response	20Hz – 20kHz
Input Impedance	2 kΩ
Directivity	0°/180° > 20 dB (1 kHz)
Equivalent Noise Level	20 dBA (SPL)
Maximum SPL	125 dB (THD < 3%)
Signal-to-Noise Ratio	> 80 dB
Channel Crosstalk	> 80 dB
Total Harmonic Distortion	< 0.05%
Built-in Speaker	8Ω, 2W (Optional)
Headphone Load	>10 Ω
Headphone Output	10 mW
Headphone Interface	3.5mm Jack ×2 (Optional)
Dimensions (Without Gooseneck)	10.5 × 15 × 4.5 cm
Weight	0.7 kg
Color	Black
Weight	Desktop

System Advantages:

- Stable digital transmission
- Strong EMI resistance
- Flexible chairman priority control
- Clean desktop installation
- Professional-grade audio clarity

Applications:

- Corporate Boardrooms
- Government Meetings
- Educational Institutions
- Conference Centers
- Training Rooms
- Courtrooms
