

NX-K150B

No-Touch Infrared Sensor Switch

Slim vertical no-touch release with an optional weatherproof build for sheltered outdoor doors.

The NX-K150B is a slim, surface-mount no-touch sensor switch that triggers door release on a hand wave. Its tall 150mm profile suits door frames and partitions, while an optional waterproof variant extends use to sheltered outdoor entries. Adjustable range and delay with NO/NC/COM outputs ensure broad compatibility.

KEY FEATURES

- ✓ **Slim 150mm Profile** — Vertical strip mounts neatly on narrow frames and partitions.
- ✓ **Contactless Hygiene** — Wave-to-open removes touch points on busy, shared doors.
- ✓ **Adjustable Range 5–20cm** — Fine-tune sensing to match door and traffic conditions.
- ✓ **Weatherproof Option** — NX-K150B-W variant adds protection for sheltered outdoor entries.
- ✓ **Dual-Colour Feedback** — Blue standby, green on trigger for instant confirmation.

APPLICATIONS

- Automatic doors
- Building lobbies
- Glass partitions
- Hospitals
- Sheltered outdoor doors
- Retail entrances
