

# NX-A8862W

## IP66 Outdoor Waterproof Exit Button

*Rugged IP66 aluminium exit button with an illuminated ring — built to last at gates and outdoor doors.*

The NX-A8862W is a heavy-duty exit button housed in a 4mm aluminium-alloy faceplate with an IP66 outdoor waterproof rating. A steady blue LED ring marks the button in low light, while NO/NC/COM dry-contact outputs ensure universal compatibility — ideal for gates, perimeter doors, and exposed entries.

### KEY FEATURES

- ✓ **IP66 Waterproof** — Sealed against driving rain and dust for reliable outdoor service.
- ✓ **4mm Aluminium Faceplate** — Vandal-resistant alloy panel survives harsh environments.
- ✓ **Illuminated Blue Ring** — Steady LED locates the button clearly at night.
- ✓ **Universal NO/NC/COM** — Dry-contact wiring fits any access controller or lock.
- ✓ **DC12V Operation** — Standard low-voltage supply for simple, safe integration.

### APPLICATIONS

- Gate entries
- Perimeter doors
- Car parks
- Loading bays
- Outdoor access points
- Industrial sites
