01 OVERVIEW

The **NX-DS343** is a 43-inch all-in-one wall-mount signage display that puts the panel, Android media engine, network and stereo audio in a single slim chassis — no external player, no cable clutter. It rotates between portrait and landscape without extra brackets, and a 50,000-hour commercial panel behind Mohs 7 anti-glare glass is rated for continuous 24/7 duty. Content is scheduled and pushed remotely from NexaSign CMS.

02 KEY FEATURES

01 True All-in-One

Display, Android engine, Wi-Fi, Ethernet and stereo speakers in one chassis — mount it, power it, it is live.

02 Rotate Portrait or Landscape

One SKU serves menu boards, corridor wayfinding and lobby video walls — no extra bracket.

03 50,000-Hour Commercial Panel

Roughly 5.7 years of unbroken 24/7 operation, behind scratch-resistant Mohs 7 glass.

04 NexaSign CMS Scheduling

Build playlists, schedule by daypart and push to one screen or a whole estate from a browser.

05 Remote OTA Maintenance

Firmware and content update over the air — no site visit, no technician callout.

06 Zero-Bonding Clarity

No air gap between glass and panel for deeper contrast and no internal glare.

03 APPLICATIONS

Retail & Restaurants

Corporate Lobbies

Hotel & Hospitality

Hospital Queue Displays

Campus Notice Boards

Bank Branches
