TYPICAL

01 OVERVIEW

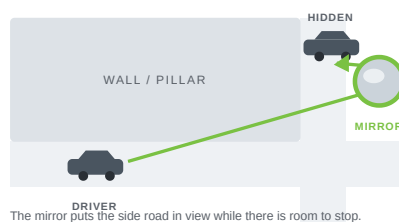

A 60 cm shatterproof polycarbonate convex mirror that shows vehicles and people coming round blind corners in basement car parks, ramps and warehouse aisles. Lightweight PP back in standard orange-red, for indoor and sheltered sites.

02 WHY A CONVEX MIRROR AT THAT CORNER

WITHOUT A MIRROR

WITH A NEXAKEY CONVEX MIRROR

03 KEY FEATURES

01 60 cm shatterproof polycarbonate face

Polycarbonate does not shatter the way glass does, so a knock from a wing mirror or a trolley leaves it serviceable.

03 Wide viewing angle, typically about 130°

Covers both approaches of a corner from a single mirror.

05 For indoor and sheltered sites

Parking ramps, basements and warehouse aisles. For an exposed gate or road corner, specify NX-CM580 or NX-CM780 instead.

02 Shows what the driver cannot see

Fitted at a blind corner it puts the oncoming lane in view before the bonnet reaches the junction.

04 Lightweight PP back

Standard orange-red polypropylene back keeps the weight down, so a simple wall or pole bracket carries it.

06 2-year warranty in Bangladesh

Registered and serviced locally by the exclusive distributor — no overseas RMA.

Values shown as “typically” are indicative industry figures, not tested results. Confirm critical values with your Nexakey distributor before tender.

07 ACCESSORIES & RELATED MODELS

Pole and wall brackets are available separately from the exclusive distributor. Specify the pole diameter or the wall fixing when ordering so the right bracket ships with the mirror.

NX-CM580

Outdoor Convex Safety Mirror, 80 cm

NX-CM780

Heavy-Duty Convex Safety Mirror, 80 cm

NX-DM360

Full Dome Safety Mirror, 60 cm

08 COMMON QUESTIONS

Which size do I need?

60 cm for basements, ramps and warehouse aisles. 80 cm for gates, roads and outdoor sites where vehicles approach faster and the mirror has to be read from further back.

Can it be used outdoors?

NX-CM580 and NX-CM780 are built for outdoor use. NX-CM360 is for indoor and sheltered sites.

Will it break if something hits it?

The face is polycarbonate, which is shatterproof. It is the standard choice where a glass mirror would be a hazard.

Which model for a coastal or highway site?

NX-CM780. Its galvanized steel back is made for salt air, strong sun and heavy rain, where a plastic back cracks and fades.

How is it mounted?

On a wall or a pole. Brackets and poles are available separately.

09 WARRANTY, SUPPORT & ORDERING

Exclusive Distributor

DigiMark Solution is the exclusive Nexakey distributor for Bangladesh. The 2-year warranty is registered and serviced locally — no overseas RMA.

Nationwide Supply

Supplied through branches in Dhaka, Chattogram and the divisional offices.
