01 OVERVIEW

A 60 cm full dome mirror that gives a 360° view of four-way crossings in car parks, warehouse aisles and supermarkets. Ceiling mounted, clear acrylic, and it deters shoplifting as well as preventing collisions.

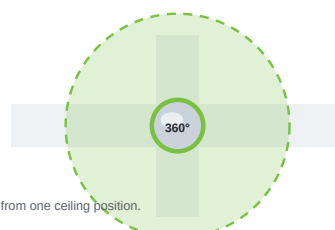

02 WHY A DOME AT A CROSSING

ONE CONVEX MIRROR

Covers two directions. A four-way crossing needs two mirrors.

ONE NX-DM360 FULL DOME

Covers all four arms from one ceiling position.

03 KEY FEATURES

01 Full dome, 360° view

One mirror covers all four arms of a crossing. A convex mirror covers two, so a four-way junction would need two of them.

03 Ceiling mounted over the crossing

Sits above the junction rather than facing it, which is why it sees every direction at once.

05 For indoor use

Car parks, warehouse aisles, corridors and retail floors. Not for an exposed outdoor position.

02 60 cm clear acrylic, 2.0 mm

Clear acrylic keeps the image bright under car-park lighting, which is usually dimmer than a shop floor.

04 Deters shoplifting as well

In shops and supermarkets the same dome covers aisle ends and blind corners of the shop floor.

06 2-year warranty in Bangladesh

Registered and serviced locally by the exclusive distributor — no overseas RMA.

04 TYPICAL APPLICATIONS

Car Park Crossings

Warehouse Aisles

Supermarkets

Corridors

Retail Floors

Loading Bays

07 ACCESSORIES & RELATED MODELS

Pole and wall brackets are available separately from the exclusive distributor. Specify the pole diameter or the wall fixing when ordering so the right bracket ships with the mirror.

NX-CM360
Convex Safety Mirror, 60 cm

NX-CM580
Outdoor Convex Safety Mirror, 80 cm

NX-CM780
Heavy-Duty Convex Safety Mirror, 80 cm

08 COMMON QUESTIONS

Why a dome instead of a convex mirror?

A dome sees 360° from one ceiling position, so it covers all four arms of a crossing. A convex mirror covers two directions, so a four-way junction needs two of them.

Can it go outdoors?

No. The dome is acrylic and is for indoor use. For an outdoor corner use NX-CM580 or NX-CM780.

Does it help against shoplifting?

Yes. The same dome that covers an aisle crossing also covers the blind ends of shop aisles, which is why retailers fit them.

Where exactly does it go?

On the ceiling directly over the crossing, not facing it from a wall.

09 WARRANTY, SUPPORT & ORDERING

Exclusive Distributor

DigiMark Solution is the exclusive Nexakey distributor for Bangladesh. The 2-year warranty is registered and serviced locally — no overseas RMA.

Site Advice

Guidance on mirror size, mounting position and viewing distance for the specific corner, ramp or gate before you order.

Nationwide Supply

Supplied through branches in Dhaka, Chattogram and the divisional offices.

Project & Tender Support

Specification text and quantities for parking, factory and government tenders, alongside the NEXA PARK and NEXA GATE ranges.
