PER SYSTEM

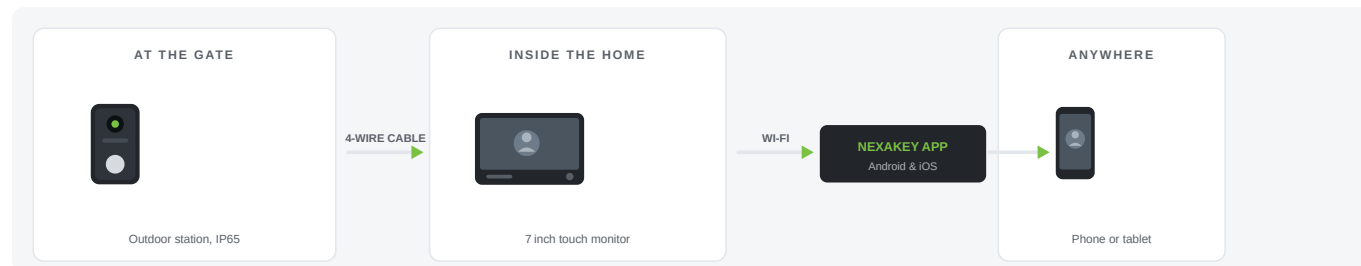

4-CH

MOTION
RECORDING

01 OVERVIEW

Seven-inch capacitive touch indoor monitor running Linux, with 2.4 GHz Wi-Fi for the Nexakey app, four-channel motion and human-detection recording and SD storage up to 1 TB. One system scales to six monitors, two door stations, three locks and two cameras.

02 WHERE IT FITS

03 KEY FEATURES

01 Wi-Fi to the phone

2.4 GHz Wi-Fi with the Nexakey app for Android and iOS, so the door is answered and opened from anywhere with a signal.

03 Four-channel recording with human detection

Motion and human-detection recording across four channels to an SD card of up to 1 TB, plus visitor voice messages.

05 Three house modes

Home, Not-at-home and Dormant change how calls are handled without rewiring anything.

02 7-inch capacitive glass touch screen

1024 × 600 IPS panel in a 20.5 mm ABS body, surface mounted, in white or black.

04 Scales to a whole building

Six monitors, two door stations, three locks and two cameras on one system, with internal calling and call transfer between monitors.

06 Takes any analogue camera

AHD, TVI, CVI and CVBS video inputs, so existing CCTV at the gate appears on the same screen.

04 TYPICAL APPLICATIONS

Private Homes & Duplexes

Apartment Flats

Office Reception

Security Rooms

Clinics & Chambers

Guard Posts
